## WORK EXPERIENCE

### Software Test Engineer Evalueserve

03/2022 - Present

#### Achievements/Tasks

- Actively performing the testing, which may include manual testing, automated testing, based on the test cases created.
- Creation of Selenium Scripts using selenium Web driver tool and TestNG framework.
- Maintenance of existing selenium framework.
- Create test plan, test suite, adding new/existing test cases to the respective test suites
- Design TestNG framework
- Conducting regression testing to ensure that new changes or updates do not introduce new defects or negatively impact existing functionality.
- Configured JMeter to simulate a realistic load on the API endpoints, considering factors such as request rate, number of concurrent users, and duration of the test.
- Collaborating with development teams, project managers, and other stakeholders to communicate test progress, issues, and resolutions.
- Providing training and guidance to team members on QA best practices and new testing techniques.

### Automation Quality Analyst Damco Solutions Pvt. Ltd.

09/2021 - 03/2022

#### Third Party

#### Achievements/Tasks

- Performed sanity/smoke testing for each release.
- Maintained multiple versions of test sets and worked on regression testing
- Supporting continuous improvement of the current test process
- Developed test cases, test data and test scripts that will verify/validate that the delivered applications meets all requirements

## EDUCATION

### Graduation

Bharati Vidyapeeth (Deemed to be University)  
College of Engineering, Pune

07/2016 - 09/2020

CGPA : 8.86

#### Btech

- Information Technology (IT)

## SKILLS

Manual Testing

Automation Testing

Java

Selenium

Logger4j

Apachepoi

Maven

JMeter

Burp Suite

Postman

Functional Testing

API Automation

## PROJECT

### Pitchready (09/2021 - Present)

- The project was about testing the different modules in Microsoft Excel, PPT, Word. There were modules like Error List, Publish, Send to PPT, Add to My Library etc.
- I was involved in testing the complete testing lifecycle including writing Test cases, Functional testing, Automation Testing, Smoke testing, System Testing, Regression Testing, API Testing, Load Testing, Stress Testing, Security testing.
- Identifying and lodging defects in the Azure Devops.
- Working closely with the development team to monitor the bug fixes on the tool

### Sales Enablement dashboard (01/2022 - 06/2022)

- The project was an Automation Dashboard Excel VBA (Visual Basic for Applications) Macros designed to monitor and manage automated processes, workflows, and systems. These dashboards provide a visual representation of the Product and Customer View to accelerate the end-to-end process.
- Evaluating the quality of product as per the client requirements.

## TOOLS

JIRA, POSTMAN, VISUAL STUDIO, ECLIPSE, BURP SUITE, SQL, SELENIUM, TEST NG, JMETER
